

INSURANCE VERIFICATION

In order to help you determine out of pocket costs with your insurance, below are typical CPT codes that we use to bill insurance. We highly encourage you to call your insurance company to find out if the visit or procedure we will be administering is paid for by your insurance or whether it will be subject to your copay, deductible, co-insurance or out of pocket maximum. We do collect at time of service towards your expected patient liability. The CPT codes provided are meant to be used as a guide and may or may not be all inclusive of all charges and or procedures used for your visit. Please note that it is the patient's responsibility to obtain prior authorizations and referrals if required and to verify benefit coverage.

New Patient with Environmental and Food Allergy Testing

- 99201 or 99202 or 99203 or 99204 Office Visit
- 95004 Percutaneous tests
- 95024 Intracutaneous tests
- 94375 Spirometry
